

TRANSFORMING LOGISTICS WITH

# ADVANCED TECHNOLOGY AT MVT

At Mesilla Valley Transportation (MVT), we are committed to leveraging cutting-edge technology to deliver exceptional value to our clients. Our investments in technology ensure operational excellence, security, and seamless connectivity, positioning us as leaders in the logistics industry. Here's how our technological advancements benefit you:

## OPERATIONAL TOOLS:

### Spot Quoting and Tendering:

Automated systems using robotics process automation (RPA) to streamline quoting, tendering, and trailer spotting.

### Pricing Tools:

Utilizing trusted and predictive market data, we ensure competitive and accurate pricing.

### Transportation Management Systems (TMS):

Optimized asset management and digital freight matching, all supported by advanced routing and optimization tools.

**Through custom geofencing, MVT can provide truly door-to-door visibility for cross-border shipments, including the ability to track down to the time spent at customs.**

## REAL-TIME VISIBILITY THROUGH COMPREHENSIVE TRACKING & CONNECTIVITY:

### Onboard Telematics:

Our tractors are equipped with modern in-cab technology to ensure your loads are delivered safely and efficiently.

### Trailer Tracking:

With best-in-class trailer technology on over 7,600 assets, we provide real-time location updates and cargo sensing.

### Seamless Integrations:

Through secure EDI and API connections, we deliver a seamless flow of information with our customers.

### Third-Party Visibility Tools:

Our systems integrate with top visibility tools like P44, FourKites, and MacroPoint, enhancing transparency across the supply chain.
